Thank you so much Valois! I was able to replace the first one, so should be able to do the rest. The snapshot function is great. This knocks off 4 comments from PT ☺

Thanks again.

Hi Mai,

The attached file has the updated figures 9b, 12a, 12b, 13a, and 13b.

Are you OK with taking the “snapshot” under the Edit tab and pasting these figures into the CEA document? Or if you would like to share the document with me, I can do it.

Thanks!

*Valois*

**Subject:** Speaking of charts....

Hi again Valois, speaking of charts—PT has several minor revision requests that pertain to figures where they say they’d like the CEA corrected to say HDPE liner instead of HDPA liner.

These edits are hard to make because it is part of text overlaid within the figure so I think it’s a graphic that’s locked for editing, or something of the like? Is this something we could look into at some point (it doesn’t have to be now—as I know you are swamped and there are more pressing things!). The figures at issue are: 9b, 12a, 12b, 13a, and 13b.

Thanks!
